Re: Welcome to the AHRI Water Chilling Packages Using Vapor Compression Cycle (Water-Cooled) Certification Program

Dear Mr. Kreuzer,

AHRI is pleased to welcome Boronia Technologies Pty Ltd to its Water Chilling Packages Using Vapor Compression Cycle (Water-Cooled) Certification Program as an Original Equipment Product Manufacturer (OEM). The AHRI Certification Programs are accredited by the Standards Council of Canada to ISO Guide 65 as a Type 4 certification system. Your certified listings will appear on AHRI's Directory of Certified Products. Your company may claim products listed in the directory as "ARI Performance Certified" while maintaining compliance to the Participation and Licensing Agreements you signed with AHRI.

For direct application of certification seals to units, labels need to be obtained through AHRI. You also have the option of obtaining an electronic version of the certification seal which can be incorporated into the unit nameplate or printed product literature. Instructions on the proper use of the electronic logos may be found in the Brand Usage Manual which is available online at [http://www.ahrinet.org/Content/ViewtheBrandUsageManual\\_76.aspx](http://www.ahrinet.org/Content/ViewtheBrandUsageManual_76.aspx). Please contact Cheron Scott, Certification Program Administrator, at (703)524-8800 or via email to [cscott@ahrinet.org](mailto:cscott@ahrinet.org) to request labels.

Saunders Smith is the AHRI Certification Engineer responsible for the Water Chilling Packages Using Vapor Compression Cycle (Water-Cooled) Certification Program. For program specific questions please contact her at (703)524-8800 or via email at [ssmith@ahrinet.org](mailto:ssmith@ahrinet.org). You may also contact me at (703)524-8800 or via email at [snanjundaram@ahrinet.org](mailto:snanjundaram@ahrinet.org) if you require further assistance.

Again, welcome to AHRI's Water Chilling Packages Using Vapor Compression Cycle (Water-Cooled) Certification Program!

Regards,
